

Baseline 2012 Indicator Definitions – HEALTH

Indicator Name	Definition	Data Source (HNLSS, DHS, etc.)	Notes
Identification Indicators			
LGA name	The full name of the LGA	OSSAP MDGs facility inventory surveys	
State	The full name of the state where the LGA is located	OSSAP MDGs facility inventory surveys	
Zone	The full name of the zone where the LGA is located	OSSAP MDGs facility inventory surveys	
Population of LGA	Total population of the LGA from the 2006 census	Nigeria Population Census, 2006	
Health Facilities			
Health posts and dispensaries	Total number of public Health Posts and Dispensaries	OSSAP MDGs facility inventory surveys	NPHCDA designations
Primary health clinics	Total number of public Primary Health Clinics / Basic Health Centres	OSSAP MDGs facility inventory surveys	NPHCDA designations
Primary health centres	Total number of public Primary Health Centres (PHCs) and Ward Model Primary Health Centres in the LGA	OSSAP MDGs facility inventory surveys	NPHCDA designations
Comprehensive health centres and hospitals	Total number of comprehensive health centres and hospitals in the LGA	OSSAP MDGs facility inventory surveys	NPHCDA designations
Other health facilities	Private health facilities and public facilities that do not fit into any NPHCDA designation, such as cottage and specialist hospitals	OSSAP MDGs facility inventory surveys	NPHCDA designations
Total number of facilities	Sum of all facilities (five indicators above)	OSSAP MDGs facility inventory surveys	
Percentage of facilities that offer inpatient care	Percentage of all facilities that have beds and staffing to provide around-the-clock care for patients requiring overnight or multi-day stays	OSSAP MDGs facility inventory surveys	
Percentage of facilities	Percentage of all	OSSAP MDGs facility	

Baseline 2012 Indicator Definitions – HEALTH

Indicator Name	Definition	Data Source (HNLSS, DHS, etc.)	Notes
that offer care 24 hours a day, 7 days a week	facilities with staff who are in-house and assigned to shifts around the clock. Does NOT include facilities that are closed at night but for which the staff can be called in emergencies	inventory surveys	
Skilled health providers per 1,000 population	Number of skilled health providers available per 1,000 people. Skilled health providers include nurses, midwives, nurse-midwives, and physicians	OSSAP MDGs facility inventory surveys	
CHEWs per 1,000 population	Number of junior and senior CHEWs available per 1,000 people. CHEWs are Community Health Extension Workers	OSSAP MDGs facility inventory surveys	
Staffing			
Total number of doctors in the LGA	Total number of doctors in the LGA	OSSAP MDGs facility inventory surveys	
Total number of midwives and nurse-midwives in the LGA	Total number of midwives and nurse-midwives in the LGA	OSSAP MDGs facility inventory surveys	
Total number of nurses in the LGA	Total number of nurses in the LGA	OSSAP MDGs facility inventory surveys	
Total number of CHEWs (Jr. and Sr.) in the LGA	Total number of CHEWs (Jr. and Sr.) in the LGA. CHEWs are Community Health Extension Workers	OSSAP MDGs facility inventory surveys	
Total number of laboratory technicians in the LGA	Total number of laboratory technicians in the LGA	OSSAP MDGs facility inventory surveys	
Skilled health providers per 1,000 population	Number of skilled health providers available per 1,000 people. Skilled health providers include	OSSAP MDGs facility inventory surveys	

Baseline 2012 Indicator Definitions – HEALTH

Indicator Name	Definition	Data Source (HNLSS, DHS, etc.)	Notes
	nurses, midwives, nurse-midwives, and physicians		
CHEWs per 1,000 population	Number of junior and senior CHEWs available per 1,000 people. CHEWs are Community Health Extension Workers	OSSAP MDGs facility inventory surveys	
Percentage of facilities where all salaried staff were paid during the last pay period	Percentage of all facilities where all salaried staff were paid during the last pay period	OSSAP MDGs facility inventory surveys	
Child Health			
Percentage of facilities that offer routine immunization	Percentage of all facilities that offer at least one of the following basic childhood vaccines: cerebral spinal meningitis, Hepatitis B, yellow fever, BCG (for TB), OPV (oral polio vaccine), measles, DPT or tetanus	OSSAP MDGs facility inventory surveys	These do not include all of necessary routine vaccines. Please see Health Packages document for the full list, on page 10-11.
Percentage of facilities that offer growth monitoring	Percentage of all facilities that offer grown monitoring services, which help to identify early nutritional or health problems in children. Necessary equipment includes a functional weighing scale or MUAC tape (measures upper-arm circumference).	OSSAP MDGs facility inventory surveys	
Percentage of facilities that offer deworming	Percentage of all facilities that offer deworming. Parasitic worm infections in	OSSAP MDGs facility inventory surveys	

Baseline 2012 Indicator Definitions – HEALTH

Indicator Name	Definition	Data Source (HNLSS, DHS, etc.)	Notes
	adults and children contribute to malnutrition, anemia, and long-term cognitive deficits. Deworming lowers the intensity of infection with medication in the form of a tablet (e.g. albendazole/ mebendazole).		
Percentage of facilities that do not charge any fees for child health services	Percentage of all facilities that do not charge fees for child health services	OSSAP MDGs facility inventory surveys	
Maternal Health			
Percentage of facilities that offer delivery services	Percentage of all facilities with capacity to provide childbirth services, with skilled birth attendants who are in-house.	OSSAP MDGs facility inventory surveys	
Percentage of facilities with at least one skilled birth attendant	Percentage of all facilities with at least one skilled birth attendant on staff. A skilled birth attendant is a doctor/medical officer, nurse, midwife or nurse-midwife.	OSSAP MDGs facility inventory surveys	
Percentage of facilities that offer antenatal care	Percentage of all facilities that offer antenatal services (e.g. assessment, vaccination), which are provided to pregnant women during pregnancy	OSSAP MDGs facility inventory surveys	
Facilities that perform Caesarean sections	Percentage of all facilities that perform Caesarian section or “C-section,” which is the surgical delivery of a baby for a pregnant	OSSAP MDGs facility inventory surveys	

Baseline 2012 Indicator Definitions – HEALTH

Indicator Name	Definition	Data Source (HNLSS, DHS, etc.)	Notes
Percentage of facilities with access to emergency transport services	<p>woman who meets medical indications for the procedure. C-section requires an operating theatre, special surgical equipment, and staff trained for conducting the surgery.</p> <p>Percentage of all facilities that have access to any type of transport to transfer patients to a referral health facility in the event of an emergency. This includes any vehicle (e.g. ambulance, car, boat) – paid or free of charge.</p>	OSSAP MDGs facility inventory surveys	
Percentage of facilities that offer family planning services	<p>Percentage of all facilities that offer family planning methods for women, which include condoms, birth-control pills, injectable and oral contraceptives, IUD implants, and tubal ligation</p>	OSSAP MDGs facility inventory surveys	
Percentage of facilities that do not charge any fees for maternal health services	<p>Percentage of all facilities that do not charge any fees for maternal health services</p>	OSSAP MDGs facility inventory surveys	
HIV/AIDS, Malaria and Other Diseases			
HIV/AIDS			
Percentage of facilities that offer HIV testing	<p>Percentage of all facilities that offer HIV testing, which includes rapid testing to screen for cases of HIV. This does not necessarily</p>	OSSAP MDGs facility inventory surveys	

Baseline 2012 Indicator Definitions – HEALTH

Indicator Name	Definition	Data Source (HNLSS, DHS, etc.)	Notes
Percentage of facilities that offer ART treatment	<p>need to include Western blot, CD4 counting, or viral load.</p> <p>Percentage of all facilities that offer antiretroviral therapy (ART), which is used in the treatment of cases of HIV that meet certain conditions</p>	OSSAP MDGs facility inventory surveys	
Malaria			
Percentage of facilities that offer malaria testing (RDT or microscopy)	<p>Percentage of all facilities that offer malaria testing. Microscopy is a lab test identifying malaria with a microscope. RDT is a rapid diagnostic test that does not require a laboratory.</p>	OSSAP MDGs facility inventory surveys	
Percentage of facilities that offer ACT-based treatment for malaria	<p>Percentage of all facilities that offer ACT, artemisinin-based combination therapy (including Coartem), which is the effective treatment for cases of malaria. Fansidar, sulphadoxine-pyrimethamine, or amodiaquine are not ACT.</p>	OSSAP MDGs facility inventory surveys	
Percentage of facilities that offer malaria prophylaxis during pregnancy	<p>Percentage of all facilities that offer two doses of Fansidar to women during pregnancy, in order to provide "Intermittent Preventive Treatment" (IPT) of malaria. Pregnant women who carry the malaria parasite may be at risk for serious problems for</p>	OSSAP MDGs facility inventory surveys	

Baseline 2012 Indicator Definitions – HEALTH

Indicator Name	Definition	Data Source (HNLSS, DHS, etc.)	Notes
	their own health and the health of the fetus, and have increased likelihood of adverse pregnancy outcomes. IPT helps to prevent malaria in pregnancy and related complications.		
Percentage of facilities that provide bednets	Percentage of all facilities that offer long-lasting insecticidal nets (LLINs) to protect against malaria. In addition to children under five and pregnant women, all sleeping sites and, thus, all household members should be covered with LLINs.	OSSAP MDGs facility inventory surveys	
Percentage of facilities that do not charge fees for malaria-related services	Percentage of all facilities that do not charge fees for malaria-related services	OSSAP MDGs facility inventory surveys	
Tuberculosis			
Percentage of facilities that offer TB testing	Percentage of all facilities that are capable of performing diagnosis of tuberculosis by microscopy	OSSAP MDGs facility inventory surveys	
Percentage of facilities that offer TB treatment	Percentage of all facilities that provide medicines for the treatment of tuberculosis	OSSAP MDGs facility inventory surveys	
Infrastructure			
Percentage of facilities with access to some form of power source	Percentage of all facilities that have access to a power source. These include generators, solar systems, and grid	OSSAP MDGs facility inventory surveys	

Baseline 2012 Indicator Definitions – HEALTH

Indicator Name	Definition	Data Source (HNLSS, DHS, etc.)	Notes
Percentage of facilities with access to an improved water source	connection. Percentage of all facilities with access to improved water sources, which include taps and boreholes	OSSAP MDGs facility inventory surveys	
Percentage of facilities with functioning improved sanitation	Percentage of all facilities with at least one improved toilet, which include flush or water/pour flush toilets to piped water systems, ventilated improved pit latrines, and pit latrines with slabs	OSSAP MDGs facility inventory surveys	
Percentage of facilities with mobile phone coverage somewhere on the premises	Percentage of all facilities that have access to at least one mobile phone, as well as low or high signal strength	OSSAP MDGs facility inventory surveys	
Percentage of facilities that separate medical waste from other forms of waste	Percentage of all facilities that separate medical waste from other forms of waste	OSSAP MDGs facility inventory surveys	
Equipment and Supplies			
Percentage of facilities that experienced a stock-out of essential medicines in the past three months	Percentage of all facilities that had stocked out of at least one of the essential medicines in the three months prior to the baseline survey. Essential medicines include antibiotics, antimalarials, antipyretics, IV fluids, and family planning medications.	OSSAP MDGs facility inventory surveys
